Report to the CSRBA District Court

Prepared by the Idaho Department of Water Resources

September 24, 2020

DESCRIPTIVE SUMMARY

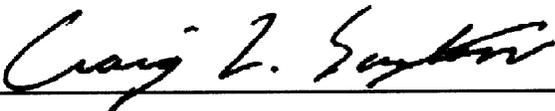

This is an Amended Director's Report submitted by the Director of the Idaho Department of Water Resources (IDWR).

DISCUSSION

On February 26, 2019, IDWR filed a Director's Report for the Bailey Jorgens Subdivision Assn Inc.'s Water Right No. 95-8954 for irrigation and domestic purposes.

On August 28, 2020, Special Master Booth reviewed water right 95-8954 for issuance of partial decree. In his review, he found an error in a condition listed in the "QUANTITY:" section of the water right. The condition incorrectly limited the daily diversion volume for domestic use of the right to 2,500 gallons per day which is in conflict with the licensed diversion volume of 6 acre-feet per year for domestic use. The Amended Director's Report corrects the daily diversion volume limit to 13,000 gallons per day.

The Director submits for filing with the Court Amended Director's Reports for the aforementioned subcases (see attached recommendations).
